

CSR PROJECTS

CSR Initiatives Undertaken during the year 2024-2025

<i>Sr. No.</i>	<i>Name of the Project</i>	<i>Project Description</i>
1	<i>Hope Centre</i>	<p>Revive Realty Private Limited, in collaboration with its CSR partner Rays of Hope Ministries, is proud to contribute towards the reconstruction and refurbishment of the Hope Centre.</p> <p>The Hope Centre is a transformative life development program dedicated to supporting victims of human trafficking and their children. Its mission is to foster educational and moral awareness while providing daily nutritious meals in a compassionate environment. By addressing both physical and emotional needs, the Centre aims to uplift not only the victims but also the surrounding slum communities.</p> <p>Over the years, the Centre has expanded by acquiring eight adjoining premises, all of which are currently being utilized. However, the existing facility—measuring approximately 900 sq. ft.—is in a dilapidated condition, limiting its capacity to serve the children effectively.</p> <p>To realize the vision of a fully equipped, child-friendly, and safe learning environment, Rays of Hope Ministries has approached Revive Realty for a contribution of ₹25,00,000. The project is being executed in a phased manner, and the company is releasing funds in stages, as per the requirements of each phase.</p> <p>Upon completion, the new facility will span 4,300 sq. ft.—2,150 sq. ft. on each floor—and will include designated activity zones designed to enhance both care and developmental programs. This expanded space will significantly improve the Centre’s ability to serve the children and the wider community in the Turbhe red-light slum.</p> <p>Revive Realty is honoured to support this impactful initiative, reaffirming its commitment to creating meaningful social change through its Corporate Social Responsibility efforts.</p>
2	Khalapur Water Project	<p>Revive Realty Private Limited along with its CSR partner “Rays of Hope Ministries” have worked on many projects in past years such as developing Drinking Water Schemes by establishment of Water Treatment Plant for Adivasi settlements and inhabitants in three Villages namely Vanve, Nimbode, and Shiravali in Taluka Khalapur, District Raigad, and Maharashtra. Rays of Hope Ministries have requested to contribute for repair work of aforesaid Water Treatment Plant.</p>
